

# Valerio Ceniccola

FRONT END DEVELOPER

I am Valerio Ceniccola, 26 years old italian front end developer. I've studied at ISD (Higher Institute of Design in Naples) from 2007 to 2010, with a degree in Graphic Design and Comunication. I love pixels, music, photography and books. I like building a clean, flat and modern web.

From 2010 to 2013 I worked for Ciaopeople, a social media agency based in Naples, Italy, creating important projects like Fanpage.it, Youmedia, Serie A Tim, De Agostini, The Jackal. I collaborated with important brands like Jeep, Juventus FC and MTV too. In 2014 I started my freelance experience and I founded Teekle, an online newspaper dedicated to technology.

BIRTH

**22.03.1989**

NATIONALITY

**Italy**
